

Flagship Construction & Building Envelope Restoration Ltd.

Built Above and Beyond Standard

At Flagship, we understand that whether it is a custom home build or a renovation project to remodel your house-- it is a large investment to improving your quality of life and increasing your property investment over the long term. Choosing a knowledgeable, certified and insured contractor is essential. After building for nearly 30 years, Flagship has the experience to ensure every project lasts above and beyond the warranty period.

It is surprising to many how complex a home remodeling can be, beginning with the aesthetic design, building code specification, to choice of materials, professional trades workmanship, and environmental and energy efficiency considerations. The most common mistake for new home owners is to let inexperienced and low-cost vendors jeopardize their investment that may cost much more in the end.

As a part of our full-service custom home build or renovation process we participate in each step from start-to-finish to successfully complete your construction project:

1. **Initial consultation & budgeting**
2. **Site preparation, safety and security assessment**
3. **Design and structural consultation**
4. **Estimates & plans of actions**
5. **Permits, plans & approvals**
6. **Interior design & finishes**
